===== WARNINGS =====

-- missing type annotation - /.../elm-counter/src/elm/Main.elm

Top-level value `update` does not have a type annotation.

```
29| update msg model =  
   ^^^^^^^
```

I inferred the type annotation so you can copy it into your code:

```
update  
  : Msg  
  -> { a | value : Int }  
  -> ( { a | value : Int }, Cmd Msg )
```

And it will even let you
know when you might
be overly strict
