REALKINETIC

YOUR POTENTIAL REALIZED

-- Sum Types can have as many options as you'd like

```
type Cars
    = Mustang
    | Camero
    | Taurus
    | Fit
    | Focus
```

-- With Boolean there are 2 possible options

```
type Bool
    = False
    | True
```

# Why called Sum Type?

-- Sum Types can have as many options as you'd like

```
type Cars
  = Mustang
  | Camero
  | Taurus
  | Fit
  | Focus
```

-- With Boolean there are 2 possible options

```
type Bool
  = False
  | True
```
