REALKINETIC

YOUR POTENTIAL REALIZED

```
maximumInt : List Int -> Maybe Int
maximumInt list =
  case list of
    x :: xs ->
      Just (foldl max x xs)
    _ ->
      Nothing
```

Now it's obvious to us when
our result has no maximum
value as we gave it no values

```
maximumInt : List Int -> Maybe Int
maximumInt list =
  case list of
    x :: xs ->
      Just (foldl max x xs)
    _ ->
      Nothing
```
