REALKINETIC

YOUR POTENTIAL REALIZED

-- This takes 2 integers and returns and Int

add2Things : Int -> Int -> Int

add2Things x y = x + y

-- But it doesn't have to.
-- You can pass only one argument
add2Things 1

```
-- This takes 2 integers and returns an Int  
add2Things : Int -> Int -> Int  
add2Things x y = x + y
```
