```javascript
// Javascript
var arr = [1, 2, 3]
> arr.map(x => x + 1)
[2, 3, 4]
```

```python
# Python
arr = [1, 2, 3]
>>> map(lambda x: x + 1, arr)
[2, 3, 4]
```

There are all kinds of functions for working with lists in the List.elm module in the standard library

REALKINETIC
YOUR POTENTIAL REALIZED

```
// Javascript
var arr = [1, 2, 3]
> arr.map(x => x + 1)
[2, 3, 4]

# Python
arr = [1, 2, 3]
>>> map(lambda x: x + 1, arr)
[2, 3, 4]
```
